Scope and Purpose

Scope: The listing includes all federally funded surface transportation projects authorized, revised to increase obligations for, requested, obligated, and remaining in the Transportation Improvement Plan (TIP) for the State Fiscal Year 2023 that ends on June 30th, 2023. Some projects may be listed that are outside of this deadline for informational purposes only. The projects on the list are those within Kanawha and Putnam counties geographically, which includes the Charleston Urbanized Area and the Hurricane-Teays Valley Transportation Management Area. The list includes all federally funded and regionally significant transportation projects including those that involve improvements to, modifications to, preservation of, expansion of, or new highways, roads, pedestrian walkways, bicycle transportation facilities, recreational trails, and a listing of transit capital improvement projects and grant awards. Details on the requirements guiding the scope of this list can be found in the Code of Federal Regulations Title 23 Chapter I Section 450.334.

Purpose: The Regional Intergovernmental Council (RIC) serves Kanawha and Putnam counties as the Metropolitan Planning Organization (MPO) responsible for transportation planning. The Charleston Metropolitan Area is defined as an urbanized area containing a population of more than 50,000, as determined by the Bureau of the Census. As a result, annual production of this list is required by law. The list provides the public and government officials with transparency as to how federal transit and highway dollars are being spent in their region in a clear and concise manner. Additional details regarding these definitions can be found under United States Code Title 49 Section 5303.

Note: Obligated projects are not always completed in the programmed year. The amount of obligation sometimes does not equal the final total cost of the project.
